Reading Instructions on Marshal MITROPAN IVANOVICH NEDELIN

BACKGROUND

Marshal of Artillery MITROPAN IVANOVICH NEDELIN holds a position as Deputy Minister of Defense. The specific area of his responsibility, however, has never been revealed. Because of his high rank and apparent association with high security artillery operations, all information relating to Marshal NEDELIN is of priority interest. Any indications of possible association with guided missile activities would be of special interest to this branch.

READING INSTRUCTIONS

I/OM is interested in all references to NEDELIN, his associates and subordinates, whether or not such references are related to guided missiles.
